CIRCULATION

VOLUME XXVIII

JULY-DECEMBER, 1963

SUBJECT INDEX

(Page numbers in *italics* refer to abstracts)

A

Absorption

cholesterol, localization of, 649
sodium and water reabsorption in cold kidney, 806

Acetylcholine, atrioventricular block induced by, potassium and, 1020

Acetyl strophanthidin, potassium changes in heart and, 1167

Acidosis, cardiac arrest and, 631

Acid-base equilibrium, in canine ventilatory standstill, 1168

Actins, cardiac and skeletal muscles, amino acids of, 748

Adams-Stokes syndrome. *See* Morgagni-Adams-Stokes syndrome; Stokes-Adams disease

Adenosine phosphates, platelet adhesiveness and, 468

Adrenal glands

hypertension and hyperaldosteronism and, 806
spontaneous bilateral hemorrhage, 467

Adrenaline. *See* Epinephrine

Age

experimental thrombosis and, 662
response of rabbits to components of streptococcal cell and, 800
treatment of patients 65 and older for hypercholesteremia, 671

Albumin, serum, in nephrosis, 674

Aldosterone

hyperaldosteronism of renal and adrenal origin, 806
hypokalemic alkalosis of aldosteronism, serum uric acid in differential diagnosis of, 816
secretion, in Goldblatt hypertension, 765
urine, colorimetric method for determining, 820

Alkalosis

baseosis in long-term therapy with benzothiadiazine diuretics, 619
hypokalemic, in aldosteronism, serum uric acid in differential diagnosis of, 816

Altitude. *See* Environment, altitude

Aluminum nicotinate effects in hypercholesteremia, 668

Amino acids

in cardiac and skeletal actins, 748
extraction by kidneys, in ammonium chloride administration, 631
sulfur-containing, plasma cholesterol levels and, 648

4-Aminoantipyrine, coronary blood flow measurement with, 782

P-Aminosalicylates, ¹³¹I-triolein absorption studies in therapy with, 671

Ammonia metabolism by kidney, in ammonium chloride administration, 631

Ammonium chloride, amino acid extraction and ammonia metabolism by kidney in administration of, 631

Anastomoses

intercoronary arterial, 669, 791
of superior vena cava to right pulmonary artery, circulatory dynamics and respiration effects, 699

Andosterone

chlorophenoxyisobutyric ester plus, serum lipids and, 670
epi-andosterone excretion in hypercholesteremia and coronary artery disease, 710
ethyl- α -p-chlorophenoxyisobutyrate plus, hypoglycemic effect, 690

Androgens, lipoprotein composition of humans and, 647

Anemia

cerebral, and response to occlusion on common carotid arteries, 1181
clinical and hemodynamic studies of mild and severe, 346, 1010
hemodynamic effects of transfusion in chronic, 713
late cardiac complications of chronic severe, 717
atrial activity and systemic blood pressure during, 63
halothane
performance of digitalized heart and, 1021
ventricular function in canine, 1176
for insertion of indwelling artificial pacemakers, 1174

Aneurysms

aortic arch, surgery for massive, with anterior chest wall erosion, 682
of aortic root with fistula to left ventricle, 589
aortic sinus
congenital, of left, 951
ruptured, 1009
dissecting aortic, pathogenesis of, 1071
intracranial
pilojection in obliteration of, 1182
radiologic study, 1170
pseudoaneurysm of heart, 427
ruptured, of Valsalva sinus, 316
thoracic aorta, 735
correction of dissecting, 771

Angina pectoris

continuous long-term heparin and oral anticoagulant therapy in severe, 1008
coronary angiograms and exercise ECG in study of, 620

Angina pectoris (*Cont'd*)

- dextro-thyroxine and cholesterol level in, 531
- ECG changes in acute severe myocardial ischemia, 473
- episodic, postural and linked, 473
- glyceryl trinitrate in, 1011
- in Minnesota business and professional men, 381

Angiocardiography

- cine-
 - in aortic insufficiency, 716
 - Fallot's tetralogy studied with, 699
 - in location and timing of atrial shunts, 786
- in congenital heart disease, 314
- heart perforation during selective, 585
- hypertonicity after selective, 1096
- in left-sided patent ductus arteriosus and right-sided aortic arch, 1138
- left ventricular, by transseptal puncture of left atrium, 209
- in mitral stenosis, 809
- of narrow infundibulum in pulmonary valvular stenosis, 182
- new contrast medium: clinical study, 314, 633
- pulmonary artery, in left atrial thrombi evaluation, 700
- selective, in arteriovenous fistula, 1173
- umbilical, in newborn, 1172
- valvular malformations in pulmonary stenosis, 314

Angiography

- bronchial artery, 632
- coronary
 - in angina pectoris study, 620
 - autopsy finding correlated with, 1172
 - clinical, ECG and physiologic studies correlated with, 793
 - in coronary heart disease diagnosis, 1171
 - coronary lesions and, 190
 - physiology and morphology of coronary circulation shown by, 1173
- epinephrine and renal circulation, 1169
- left-heart, role of, 315
- left-ventricular, myocardial infarction and transmural extravasation of contrast medium in, 105
- of left-ventricular wall and cavity in valvular lesions, 339
- new technic, with permanent cast of coronary arteries, 669
- in pulmonary embolism, 1009
- renal artery: approaches and technic compared, 843
- renal blood flow patterns with selective, 722
- renal, in renal hypertension diagnosis, 1035
- stroke evaluation with, 1172
- in subvalvular obstruction of left ventricle, 815

Angiotensin

- coronary artery flow and oxygen consumption and, 737
- determination in blood, 807
- in hypotensive shock, 819
- left-ventricular performance and, 714
- renal tubules and, 754
- II
 - cardiac output and regional blood flow and, 759
 - digital blood flow and precapillary and post-capillary blood vessels, 1181
 - vasoconstrictor activity reversal, 767

Antibiotics

- neomycin and human cholesterol biosynthesis, 780
- penicillin
 - oral, in rheumatic fever prophylaxis, 818

- prophylaxis in streptococcal infection control, 753
- prophylactic, febrile reactions after cardiac surgery and, 719
- prophylactic therapy in open-heart surgery, 739
- tetracycline and serum lipoproteins, 672

Anticoagulants

- in acute myocardial infarction, 472
- in cerebrovascular disease, rebound phenomena after, 329
- comparative study of thrombotest, Quick test, heparin tolerance test and Stuart factor, 140
- factor IX during oral, 663
- laboratory control of therapy with, 140, 1007
- neodicumarine and phenylne and coronary circulation, 618
- in occlusive vascular disease therapy, 1182
- oral, long-term heparin therapy compared with, in severe angina pectoris, 1008
- partial thromboplastin time in therapy with, 140
- prophylactic
 - after myocardial infarction, 800
 - in experimental coronary insufficiency, 617
- requirements, atromid and ethyl chlorophenoxyisobutyrate and, 618
- reticuloendothelial system and therapy with, 1006
- serum cholesterol and coumarin derivatives and phenindione administration compared, 666
- studies on coumarins, 139
- surgery during therapy with, 1176
- See also* specific drug

Antipyrines, I¹³¹ iodo-, coronary blood flow measured by, 1166**Aorta**

- aneurysms
 - pathogenesis of dissecting, 1071
 - of root, with fistula to left ventricle, 589
 - thoracic aorta, 735, 771
- arteriosclerosis, in woodchucks, 673
- atherosclerosis
 - butter feeding and experimental, 659
 - development of, 650
 - β -glucuronidase activity in experimental, 1006
 - mucopolysaccharides in, 136
 - phosphomonoesterase and adenylypyrophosphatase activity in experimental, 1006
 - in young Negroes of Haiti and United States, 730
- blood flow, hemodynamics, 723
- clamping, coronary artery flow and oxygen consumption and, 737
- coarctation
 - follow-up of homografts in, 742
 - hypertension and increased hindlimb vascular reactivity in experimental, 624
 - notching of ribs without, 315
- compliance and stroke volume, 797
- enzyme activities in dog, 659
- intimal smooth muscle and elastic tissue, 672
- intrapericardial aortico-pulmonary artery shunt, 520
- lipid and mineral matter in, 138
- occlusion, cardiac output and sudden, 808
- pressure-diameter relations, 310
- strain and trauma and, 268
- transposition with pulmonary artery, surgery for, 735
- See also* Aortic arch

Aortic arch

- aneurysm, surgery for massive, with erosion of anterior chest wall, 682

- right-sided, left-sided patent ductus arteriosus with, 1138
 syndrome, Takayasu's arteritis and, 149
- Aortic sinus**
 congenital aneurysm of left, 951
 ruptured aneurysm of, 1009
- Aortic valve**
 cusp prolapse in ventricular septal defect, 691
 direct detection of closure, 760
 insufficiency
 absence of first heart sound in, 251
 cinéangiocardigraphic evaluation, 716
 evaluation of severity, 316, 733
 lesions, thickness of left-ventricular wall and cavity in, 339
 regurgitation, direct and indirect arterial pressures in, 316
 surgery
 ball-valve prosthetic replacement, 695
 calcific embolization and valvotomy, 175
 complete heart block following replacement, 801
 phonocardiography before and after prosthetic replacement, 814
 prosthetic replacement, 744
 reconstruction, 1175
See also Stenosis, aortic
- Aortography**
 complications of, 752
 toxic reactions to, 789
- Apaches**, coronary heart disease and hypertension in White Mountain tribe, 652, 926
- Arachidonic acid**, plasma, pancreas in regulation of, 651
- Arcus senilis**, coronary heart disease plus, 724
- Arrest, cardiac**
 acidosis and, 631
 output during manual massage in, 1165
- Arrhythmias**
 atrial, cardiac conduction system in diphtheria with, 263
 bedside technic for evaluation, 821
 diencephalic stimulation in induction of, 629
 digitalis-induced, citrate salts in, 727
 hypertonic sodium chloride and, 630
 isoproterenol injection into coronary arteries and, 1020
 QX-572, new agent for, 811
 lidocaine and procaine amide and, 486
See also specific condition
- Arterenol**. *See* Epinephrine
- Arteries**
 constriction, long-chain saturated fatty acids in production, 809
 coronary artery occlusion location and pattern of, 35
 extrathoracic systemic shunt, to pulmonary, 719
 giant-cell arteritis, 1180
 to human kidney, 1019
 intima, hyperlipemia and thickened, 657
 intrarenal pattern in essential hypertension, 146
 insufficiency
 of lower extremities, double lesions in, 764
 simplified exercise test for, 757
 knitted prosthesis, 825
 lactate and pyruvate concentrations in, exercise effects in rheumatic heart disease and, 631
 localization and origin of sphingomyelin, cerebroside and cholesterol in, 1005
 occlusion, treatment under oxygen at 2-atmospheres pressure, 634
 oxygen desaturation in right-ventricular endomyocardial fibrosis, 1021
 pressure in aortic regurgitation, 316
 prosthesis diameter in replacement of small, 742
 resistance and digital mean pressure in normotension and hypertension, 415
 responses of isolated conduit, 796
 smooth muscle, magnesium and calcium and contraction of, 732
 systemic pressure during exercise in pulmonary hypertension, 1168
 vasodilating action of oxygen emboli, 686
 vasopressins and lipid and mucopolysaccharide synthesis by wall of, 660
See also Arteriovenous conditions; and specific artery and/or condition
- Arteriography**. *See* Angiography
- Arterioles, digital**, in hypertension, 698
- Arteriosclerosis**
 in congenital heart disease, 626
 coronary and aortic, in woodchucks, 673
 obliterans, lumbar sympathectomy for, 1180
 re-evaluation, 617
 retinal, serum cholesterol and, 674
 serum magnesium in, 667
 in whales and dolphins, 670
See also Atherosclerosis
- Arteriovenous conditions**
 fistulas
 blood flow and velocity in femoral artery proximal to, 309
 coronary sinus rupture with hemopericardium as complication of, 1143
 internal mammary, myocardial blood flow and, 1022
 renal, 632
 roentgenography of systemic, 1173
 systemic and coronary hemodynamic effects of, 149
- Arteritis**
 giant-cell, 1180
 Takayasu's, aortic arch syndrome and, 149
- Atherosclerosis**
 aortic
 butter feeding and experimental, 659
 enzyme activities in experimental, 659
 β -glucuronidase activity in experimental, 1006
 mucopolysaccharides in, 136
 atherogenesis in Cebus monkey, 138
 blood-vessel wall enzyme activity in, 137
 cigarette smoking and, 306
 clearing factor and, 138
 coronary and aortic, in Negroes of Haiti and United States, 730
 DOCA and renal hypertension compared, in etiology of, 655
 environment and diet-induced, in cockerels, 669
 experimental, in primates, 813
 fats and experimental, 136, 662
 fatty acid composition of plaque and tissue lipids from pigeons with, 676
 iridium in prevention of spontaneous, 656
 lesions
 cellular metabolic units in, 656

Atherosclerosis (*Cont'd*)

- plasma β -lipoprotein in developing, 822
- ultrastructure of enzyme-induced, 775
- localization and origin of sphingomyelin, cerebroside and cholesterol in artery in, 1005
- natural, in squirrel monkey, 665
- pathologic studies of coronary, 147
- phosphomonoesterase and adenylypyrophosphatase activities in aorta in experimental, 1006
- rapid development of, 650, 653
- re-evaluation, 617
- review and evaluation of indices, 676
- serum copper in, 658
- serum and tissue lipids in experimental, 658
- significance of blood coagulation in, 139
- thromboatherosclerosis, origin of lipid and cholesterol in, 136
- tissues, lipoprotein composition and synthesis in, 660
- vascular resistance in, 306

Atrioventricular conduction system

- anatomy, in ventricular septal defect, 72
- lesions, after ventricular septal defect repair, 82

Atrium

- activity, in anesthesia, 63
- arrhythmias
 - cardiac conduction system in heart block plus diphtheria with, 263
 - cardiac output in fibrillation, 772
 - continuous murmurs in intraatrial communication and left-atrial hypertension, 763, 853
 - hemodynamic response to exercise in flutter, 1022
 - paroxysmal tachycardia, with block around ectopic pacemaker, 949
 - significance of coarse and fine fibrillation, 144
- cor triatriatum: surgical correction, 1174
- enlargement, VCG and ECG analysis, 734
- left
 - coronary sinus communication with, 947
 - diagnosis of myxomas, 1177
 - giant "A" wave of appendage, 1110
 - indirect pulse and intraesophageal phonocardiography, 793
 - left-ventricular angiocardiography by transseptal puncture of, 209
 - pressure and volume relations in heart disease, 711
 - pulmonary arterial angiocardiography in evaluation of thrombi, 700
 - puncture, in rheumatic mitral valvular disease, 316
 - rheumatic lesions in appendage, in mitral stenosis, 1019
 - volumes in children with congenital heart disease, 770
- left ventricular-right atrial canal: surgery for, 315
- preparations, veratramine and response to epinephrine, 629
- Rb⁸⁶ clearance from coronary blood by canine, 1166
